## PROFESSIONAL SUMMARY

Full-stack developer and Data engineering enthusiast developing solutions in software, cloud computing, and big data analytics. Proficient in Java, Python, SQL, and built scalable applications using Spring Boot, React, and Django. Certified in AWS and Red Hat technologies, with hands-on experience in microservices, CI/CD, and relational databases. Achieved a 2 star rating on CodeChef, showcasing problem solving skills.

## EDUCATION

|                                                                                          |                           |
|------------------------------------------------------------------------------------------|---------------------------|
| <b>KL University</b> , Vijayawada, India                                                 | August 2022 – April 2026  |
| B.Tech in Computer Science and Engineering (Honors), Data Science and Big Data Analytics | <b>CGPA: 9.68/10</b>      |
| <b>Sree Chaitanya Junior College</b> , Kavali, India                                     | September 2020 – May 2022 |
| Class 12 (Mathematics, Physics, Chemistry)                                               | <b>Percentage: 93%</b>    |
